

# Sight Words

Sight words are the basic words that help build the foundation for reading and writing. First graders will read and write sight words at school. It is also important to work on them at home. Attached is a list of 22 sight words...also called "Popcorn Words"... because they POP up everywhere! Please help your child read and write all of these words. As soon as he/she can read and write all of these words fluently, please return the list with his/her name on it. If he/she misses any words, I will circle them and send them back home for continued practice. When your child can read all of the words to me without help, a new list will be sent home.

Thank you! ☺
